On behalf of Udruga Inovatora Hrvatske Zagreb, founder of the Invention Show ARCA in Zagreb, Croatia, we would like to thank INVENTOR Promotion Agency LTD for hitherto cooperation on the area of invention promotion.

Within previous years we had a chance to meet on several occasions and we value high the activity of INVENTOR in promotion of Polish inventions. Due to the top professional organized stand and way of presenting the inventions we dragged them into talks about presenting Polish inventions on our show in Zagreb.

In addition they have organized the AMW (Akademia Mlodego Wynalazcy) Contest, which fits perfect into our way of sharing the intellectual value of youth inventors. As we have similar contest we already started dialogue to establish a good cooperation that should help young inventors to exchange their experience. In addition we would like (we as Udruga Inovatora Hrvatske and INVENTOR) to act as a connection node between them and their academies in our countries.

As we will be joining the European Union in 2013 we want to keep contact with valuable companies from across Europe, which INVENTOR definitely belongs to.

We are looking forward to see INVENTOR in Zagreb, because we want to cooperate with professional companies which are really devoted to their job.

Best Regards,

Secretary general

Vojislav Raušević
